FEATURES

CONSTRUCTION

- White painted galvanized steel cabinet
- 2" foamed-in-place "zero ODP" urethane insulation
- A large heavy duty rub rail and kick plate to protect from abuse
- Five white cantilever epoxy-coated welded wire shelves with price tag molding per door
- Shelves rated to support 110 lbs. each
- Product Stop feature to prevent product from falling behind shelves
- Pre-wired cabinet-to-cabinet electrical terminal block connectors
- Standard joining kits when linking together multi-door modules
- Ends must be ordered separately
- Standard TEM vertical lighting features T-12 high output bulbs while TEL models are equipped with T-10 bulbs
- Optional electronic lighting and additional horizontal lighting available, consult factory
- Pre-piped drain in bottom of each section for cleaning purposes (with removable plug)

DOORS

- Choice of 24" or 30" wide glass doors
- Self-closing door hinge with adjustable torsion control
- Standard black door and frame (optional colors available)

REFRIGERATION

- All models designed for remote refrigeration systems
- Refrigerant:
 - -TEM models: R-22
 - -TEL models: R-404A
- Factory tested refrigeration system
- Oversized raceway for ease of refrigeration piping
- Full length heavy-duty copper tube evaporator coil
- Choice of electric or hot gas defrost
- Pre-mounted expansion valve
- Temperature ranges:
 - -TEM models: 34° to 41°F (1°to 5°C)
 - -TEL models: 0° to -15°F (18° to -26°C)

• R-factor (insulation efficiency rating): 18.75

WARRANTY

• One year limited parts

| TEMan | d/or TE | L |

Merchandiser to be constructed of white painted galvanized steel with 2" foamed-in-place "zero ODP" urethane insulation. Merchandiser may be used as a stand-alone unit or combined in a modular endless design.

Standard TEM model vertical lighting features T-12 high output bulbs while TEL models are equipped with T-10 bulbs.

Merchandiser will contain five white cantilever epoxy-coated welded wire shelves with price tag molding per door. In addition, a Product Stop feature will prevent product from falling behind shelves. Other standard features to include:

- Heavy-duty rub rail and kick plate
- Pre-wired cabinet-to-cabinet electrical terminal block connectors
- Standard joining kits when linking together multi-door modules
- Pre-piped drain in bottom of each section with removable plug for cleaning

Glass doors will be supplied with self-closing door hinge and provision for easy adjustment of torsion and leveling. Merchandiser supplied with either 24" or 30" wide glass doors. Door and frame provided in standard black finish with optional colors available.

The refrigeration system will be remote and will contain a full-length heavy-duty copper tube evaporator coil and premounted expansion valve. There will also be a choice of electric or hot gas defrost. Additionally, merchandiser will be supplied with an oversized raceway for ease of refrigeration piping. TEM models will use R-22 refrigerant while TEL models will use R-404A.

Temperature ranges will be:
